## THE BRIEF

During a school-wide expansion Sparrow Farm Junior School contacted Creative Play in regards to developing their old Outdoor Classroom area. They wanted an impressive MUGA that could be used for both playtimes/ after-school clubs as well as PE lessons.

Available in a variety of sizes, Sparrow Farm decided on our 24m x 12m option with 3m perimeter fencing. With Green Wetpour Safety Surfacing it complements the nearby school field well and the colour-coded football, netball and basketball court markings ensure the MUGA catered to a variety of different sports.

For that added wow-factor both goal ends were custom engraved at our in-house factory with the school name to create a completely bespoke MUGA.

The final development looks fantastic and is a great asset to the school.
