T112 Cricket Fielder with Mesh Panel

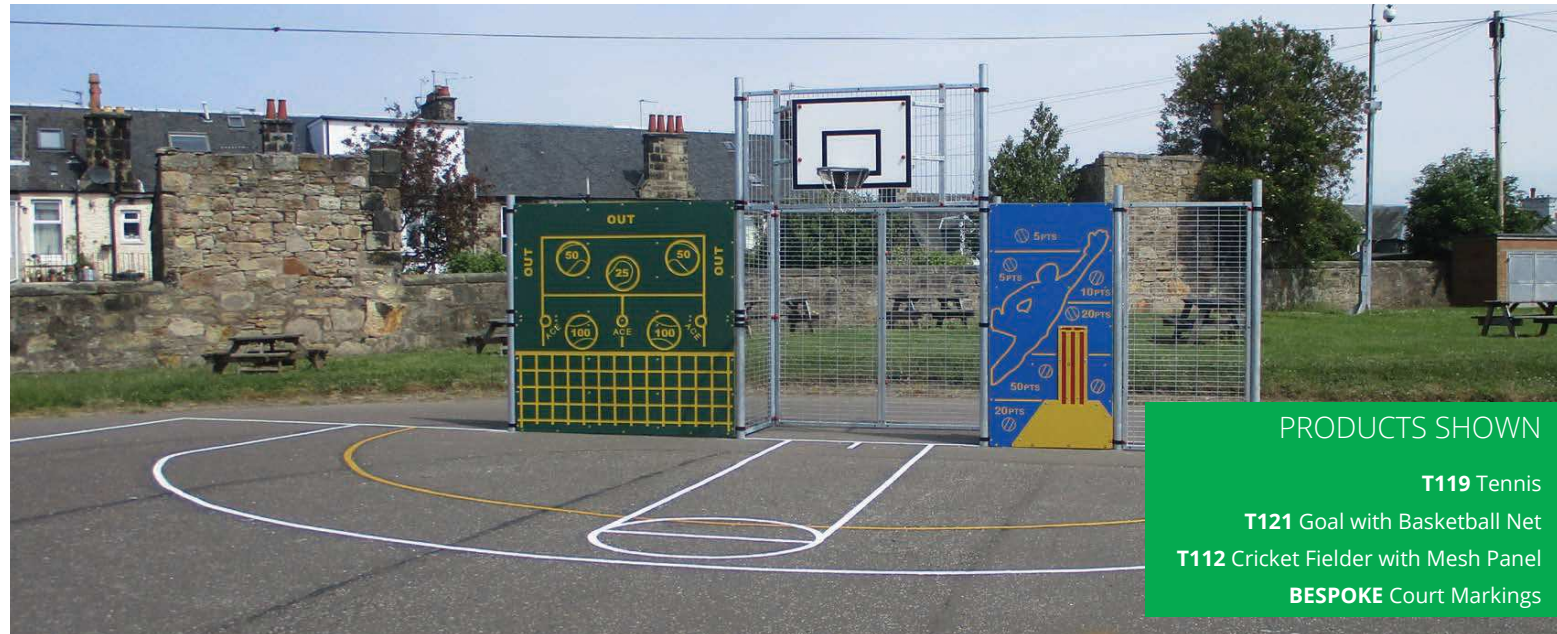

T113 Cricket Batsman with Mesh Panel

BESPOKE Court Markings

THE BRIEF

St Mary's RC Primary School contacted Creative Play after viewing our Target range on our website. They wanted to update their existing tarmac sports court area and inject a variety of sports-related play opportunities.

The staff at St Mary's really liked our Target One, a Goal with Basketball Net with two football themed Target panels, however wanted to provide a wider variety of sports opportunities in their existing play space. All our full height Target panels are interchangeable so they can be individually selected to best suit the school's play requirements. Together, we decided on two Tennis Panels as well as a Cricket Batsman and Cricket Fielder to be spread across the two Target Goal areas. To rejuvenate the area we also laid new thermoplastic sports court markings, including basketball, netball & football, allowing a much wider range of sports to be played during break and lesson times.
